Technical Skills		
Methodical	Relational Database Design	Expert
Knowledge	Administration and Tuning of Oracle Databases	Experienced
	Reporting und OLAP	Expert
	Project Management, Requirement Analysis	Experienced
Databases	Oracle, MySQL, Microsoft SQL Server	Expert
	PostgreSQL, IBM DB2, Hadoop	Experienced
	Teradata, SAP HANA, ExaSol, Informix, Netezza	Basic Knowledge
Database Languages	SQL, Oracle PL/SQL, T-SQL	Expert
ETL Applications	SAP DS Oracle Warehouse Builder	Expert
	Microsoft SSIS, Informatica, Talend	Experienced
BI Applications	Cognos, SAP BO	Expert
	Microsoft SSRS und SSAS	Experienced
Hadoop Distributions	Hortonworks, Cloudera	Basic Knowledge
Programming	Java Platform (Java SE, Java EE)	Experienced
Languages	Php, Perl	Experienced
	Web and XML Technologies (HTML, JavaScript, AJAX)	Experienced
Special Interests	Open Source Software, Social Media, Cloud Computing	
Business Skills		
Themes	CRM, Risk Management, Customer Decisioning	Expert
	Campaign Management	Experienced
	Controlling, Billing, Real-Time BI and DWH	Experienced
Industries	Telecommunications, E-Commerce	Expert
	Pharmacy, Chemistry, Logistics	Experienced

Work Experie	Work Experience	
2013-05 » today	Msg systems – Muni	ich
	Senior Consultant in t	he fields of Data Warehousing and Business Intelligence
	With focus on Microso	ft and SAP products.
	Involvement in projects with the role of data warehouse designer/architect and back-end specialist.	
	2015-12 » Now	Automotive
		Definition of architectural guidelines for a Big Data application
		Roles:
		Architecture, Hadoop Specialist
	2015-04 » 2015-11	Internet company
		Customizing of a software platform for online-surveys
		Roles:
		PHP Development, Software Engineering
	2014-04 » 2015-03	Internal project - Hadoop Cluster
		Training in the Hadoop Technologies.
		Installation and configuration of the Hadoop-distribution Hortonworks on a cluster with several nodes for training and show cases.
	2014-04 » 2015-03	Presales activities
		Involvement in the preparation of several offerings.
	2013-10 » 2014-03	Finance
		Design and development of a database auditing solution for SQL Server on the basis of T-SQL stored procedures.
		Design and development of ETL routines with SSIS and reports with SSRS.
		Roles:
		Requirement analysis
		T-SQL- and ETL-development
		Reporting
	2013-06 » 2013-09	Internal project - BI-Labs
		Installation and configuration of BI products on several virtual machines for training and show cases:
		Datenbanken: Oracle, SQL Server, DB2
		ETL: Informatica PC, SAP DS, Oracle DI, IBM DataStage
		Reporting: SAP BO, IBM Cognos
2012-08 » 2013-01	Payback - Munich	
	Senior DWH Engineer programs.	in a leading company specialized in customer rewarding

Kabel Deutschland		
Kabel Deutschland – Unterföhring (near Munich)		
Senior ETL Developer in a leading cable-tv and telecommunication company.		
Roles:		
Design and development of key software solutions for data replication and data quality check.		
Definition of the soft	ware architecture of the back end applications.	
SHS VIVEON - Mun	nich	
Senior Consultant in with focus in CRM an	the fields of Data Warehousing and Business Intelligence d Risk Management.	
	cts concerning Customer Decisioning and Customer Profiling cations and e-commerce branches.	
Design and development of state-of-the-art data warehouses and business intelligence systems. Management of data warehousing and business intelligence projects with the roles of data warehouse architect/designer.		
		List of projects:
2010-07 » 2010-12	Buch.de	
	Enhancement of the existing DWH with new reporting with two new areas: logistics, product recommendations.	
	Roles:	
	Requirement analysis, database modelling and ETL development.	
2009-08 » 2010-06	T-Mobile	
	Design and development of a contact management tool for the utilization of integrated contacts from T-Home and T- Mobile in campaigns.	
	Roles:	
	Development of the backend in PL/SQL and of some frontend components in java (JSP).
